NEW COVERNOR FOR CUAM.

Lieut, Commander Schroeder Succeeds Capt. Leary.

Change is Made at Latter's Request-Guam to Become an Important Pacific Station.

Washington, March 21 .- Lleut. Com. Seaton Schroeder, at present secretary of the naval inspection board, has been selected to succeed Capt. Leary as naval governor of the island of Guam. Commander Schroeder had applied for and been promised the governorship of the island of Tutuila, but the administration of the affairs of Guam is believed to be more desirable, and many of the difficulties in the establishment of government have already been removed through the energy of Capt.

The naval department expects a great future for Guam in a commercial way Besides being a naval station, all the Pacific army transports are expected hereafter to touch at the island to and from Manila, the projected Pacific cable will have a station there, a mercantile coaling station will soon, it is believed, be established, and so attract merchant vessels, and Guam will become a regular port of call for regular shipping in

the eastern seas.
Commander Schroeder expects to sail on the Solace from San Francisco for Guam about the middle of May, and he will relieve Capt. Leary before July next. It is stated at the navy department that Capt. Leary is coming home at his own request, and his action is also in conformity with the policy the department has laid down to make frequent changes in the command of these naval stations in the interest of the health and spirit of the officers.

roneous Impressions Concerning It.

Washington, March 21 .- In view of the recently expressed apprehension as to the effect of certain features of the new financial law, the following statement was made today by Chairman Brossius of the House committee on banking and currency, and one of the House conferees on the financial bill. "The apprehensions expressed in many quarters that under the banking feaof the financial bill recently passed there will be some inflation do not doubt has some ground. It will be unfortunate if there was not, for we need more currency. I have no doubt that there will be a gradual increase in our circulation to meet the require-ments of trade. It must be considered in connection with this subject that there are three natural checks upon excessive issues of bank currency under the new law. First, it is to be noted that under the operation of redemp-tion any considerable inflation of bank notes would cause them to be sent into the treasury for redemption in large amounts and the issuing banks would have to put up the lawful money for the purpose, which would deplete their

"In the second place, any great de mand for bonds to exchange for the i yond the limit which would make it profitable to use them for banking pur poses, in which case the banks quite likely sell bonds to make the profit rather than take out circulation. 'In the third place the limit of \$3,-000,000 a month upon the retirement of currency will make banks very cautious about taking out more circulation than they will be able to keep out profitably, for once out, it might have to remain out for some time before it could be re-tired. These several checks will oper-ate automatically to restrain excessive issues of bank currency under the new law. It may be assumed that the 10 per authorized to be issued on bonds already deposited will be put of will not exceed in amount \$24,000 in round numbers, which is scarely more than I per cent of the total volume of our circulation and can do no harm. It is impossible to make an a curate fore of the amount of carrency that will be put out by the new banks that will be organized. There is no good reason to believe that it will exceed the existing need in the South and West, where great inconvenience has been suffered for lack of additional banking

through a hole in the side of the prison.

Thereupon the witness said a colored

soldier who was on guard on the out-

side, shoved his bayonet at the protruding finger, inflicting a bloody wound. A copy of the permit required of those seeking work in the Coeur d'Alene district was introduced. It recited at length the facts concerning the holder, that he was not a member of a union and that he took an oath to obey the law. The witness said he had not taken out a permit, regarding it as a badge of servitude and un-American to require an

Representative Jett made the point that the law presumed that a citizen obeyed the law until otherwise proved.

The cross-examination was directed to showing that the permit system was designed to secure an orderly force of workmen in the mines. The witness maintained, however, that its effect was to blacklist those who did not take out permit, and also to make an "oligarchy or aristocracy" of those in control of the permit system. He said the class of miners has deteriorated under the the night trains, as many drunken men carrying dirks in their belts were on

Salt Lake Valley to Connect With West Side Railroad.

LATTER IS TO BE EXTENDED

From Garden City, the Present Termis nus, to the Bingham Mines and Miners.

The Salt Lake Valley Railway company, which has on hand the construction of an electric railroad from Ogder to Salt Lake, is making a wise move ir Its petition to the City Council, presented last night, for a franchise giving them a right of way down First West street to Second South street. The petition of the company was last night referred to the committees on streets and municipal laws, with the city attorney added. The company's description of the route upon which they desire a right of way is as follows: Commencing at First West and Second South streets, running thence north on First West street to the south side of the Warm Springs property, thence north through the Warm Springs property and parallel to the gravity sewer through the Hot Springs hill to the city limits or bound-ary line between Salt Lake and Davis counties

As is well known to most citizens the West Side railroad has its town terminus at Second South and First West streets, the point to which the Sali Lake Valley desires to run; and this little line operates for a distance of four miles from its starting point. The rails are laid for a distance of miles to Garden City, but as there are poles and wires for half that distance only, or to a point near Twelfth West and Tenth South streets, cars run but that far.

The West Side line belongs to the Teliuride Power and Transmission company, which has for some time past been reputed to have in contemplation the building of an electric line from Salt Lake and Power will be a property of the past Lake to Bingham. The miles of track of the West Side railroad is sud deply discovered to have brought Bing-ham miles nearer this city and the userulness of a line heretofore considered a dead loss is now apparent, since its extension to Bingham is contemplated and also in view of its early connection with a similar system from here to Ogden. The proposition is creating considerable interest and it is moderately safe to say that Ogden and Bingham will soon be connected by these two electric lines, with Salt Lake as a big station midway between the

Disturbing Matters. No settlement has been reached as yet of the dispute in regard to New England tourist rates between the Lake Shore, the Michigan Central and the Grand Trunk, and it will probably become necessary for the presidents to interfere once more. This dispute cont-ing, as it does, right on top of the settlement of the disagreement in regard to rates on business from St. Paul-Chicago lines, which was caused by the same lines, has given rise to consider-

able speculation among railroad men.
"The lines that are making all the trouble," said a New York passenger agent today, "are Vanderbilt lines, and their action is in line with the evident policy of that system to knock out the differential roads. If this dispute is not settled soon, the result will be a demoralization of rates in this territory, because the sale of tickets good from June to October, with stop-over privileges, via Albany to New Epg-land points, will naturally affect rates

Unless the matter is arbitrated this dispute, it is thought, may cause a disruption of the joint passenger agree-ASKED TO RESIGN.

Mr. A. G. Lamson Requested to Give Up Office in Water Company. It is stated upon what seems to be good authority that President A. G. Lamson, of the Sait Lake City Water and Electrical Power Company, has been requested to tender his resignation as such officer of that company.
The principal stockholder in the company, Mr. A. H. Tarbet, is reported to have conceived and harbored a dislike for Mr. Lamson; and this dislike is said to have resulted from the alleged circumstance that the president "freeze s possessed of a disposition to financial backer out" his principal However true these reports may be, it is announced that a meeting of the company will be held on April 10th, Tha call for this meeting is signed by Messrs. A. H. Tarbet, Joseph Geoghegan and Lindsay R. Rogers, and it is anticipated that on April 10th Mr. Lamson will be asked by a majority of the company's stock to do what he refuses to do at the request of Mr. Tar-bet, or have the company perform the function for him and without his consent. Three hundred thousand dollars worth of stock is said to be behind the conclusion to oust President Lam-

LAMSON SAYS NO. When the matter was looked up by a. "News" man today Mr. Lamson authorized this statement:

"The business interests of Mr. Tarbet and myself in this company are identical, and there is no friction between
